

About Bodega Bay Grange...

Located in a small coastal village in beautiful Sonoma County, the Bodega Bay Grange was founded by local fishermen in 1952. In keeping with the tradition of husbandry established by our founders, we are dedicated to being responsible stewards of our coastal region, and promoting a strong and vibrant community through our volunteer work. We serve Bodega Bay in diverse ways as a community gathering place, and as a critical resource for disaster relief.

We thank you for your support!
